

### In preparation for your child starting school

All sessions will include some language and literacy and mathematical activities. Not all work will be sent home at the end of the session, but will be kept in your child's folder.

Each week the children will bring home a simple sheet, based on something we have been working on. Please don't feel they have to complete it, it is supposed to be a fun activity to work on with your child.

If they do complete it please bring it back on Monday afternoons to put in their folder. They will also bring home a book of their choice to read and enjoy at home. **This must be returned on Monday afternoons in the folder provided.**

Sessions will include some writing, letter recognition and mathematical activities. When teaching your child remember to use lower case letters, apart from at the start of a word.

Sessions will include some physical activities, and music. **After Easter** we will be preparing the children for changing into PE kit at school. They will require shorts, T shirt and a change of soft shoes or plimsolls in a named bag, which we will keep at Pre-School for the whole term.

Don't forget that we are compiling an assessment document on your child called "My learning story" Please ask me if you would like to look at it at any time or if you have any questions concerning your child.

### **School Visits**

During this term we will be visit Newton Flotman Primary school. The children will have an opportunity to meet the staff there and become familiar with the school environment.
